10x15, 10x19, 10x23 (NEW)  
4ft Add-On Extensions Now Available

The Lotus by Globel Shed range of premium garden sheds combines durability, good looks and exceptional value for money.

This product draws on the experience of many years of research and development and employs the best possible materials. It provides top specification buildings and is modelled, with modifications and refinements, on a range previously supported by Store More, which was widely recognised as the best light clad metal shed in the market for many years.

It is made in a factory which has installed the latest modern technology and machinery to produce an extremely well designed and precisely manufactured range of storage options from cushion boxes to garages and workshops.

Store More Garden Buildings Ltd. has been distributing light clad metal garden storage products for over 40 years and insists on a minimum specification to stand up to the variable climate of UK and its extensive exposure to the sea. This product more than meets this requirement and can be considered of the best in the category.

# Specifications

Type	External Base Dimensions	External Roof Dimensions	Wall Height cm	Overall Height cm	Door Opening	Weight (Kg)	Number of Cartons
	(Front x Sides cm)	(Front x Side cm)			(Height x Width cm)

## Optional Extras

**Wooden Floor Kit:** Comprises fully pressure impregnated tongued & grooved boards and bearers. Nails included for assembly, plus screws to fix the shed base rail to the top surface of the floor. **Foundation Kit is not required with this product option.**

**Anchor Screw Fixing Kit:** Fits through pre-drilled holes in the base rail. Kit supplied complete with masonry drill bit. Used to secure a shed to an existing concrete or slab base. Screws are cross slot headed to enable removal later if required.

**Foundation Kit:** Comprises galvanised steel channels which assemble to give a foundation area. This should later be filled with concrete after first inserting a plastic sheet below to prevent dampness rising.

**Wooden Floor kit is not required with this product option.**

**Skylight:** Translucent roof sheet available to permit daylight to the shed interior. Replaces one full width roof panel. **Fits all apex roofed sheds only.**

**Optional Window Kit.** Kit supplied with cut-down wall panel (in shed colour). **Only available on certain models (please enquire for details).**

**Free Standing Shelves:** Shelving Kits available for the Lotus Apex Sheds. 150cm H x 70cm W x 30cm
